

SV44 Trim Tab Mount

The SV44 light is a unique concept in underwater lighting in that it combines the light and the trim tab in one installation. This allows for a simpler install and alleviates the necessity for additional holes in the transom. Utilizing the actuator on the trim tab allows the light to be angled lower in the water for added effect. It is suitable for all small boats under 40 feet / 12 meters.

Patent Pending

SV44 technical specifications

| | |
|--------------------|-------------------------------|
| Application for: | Trim tabs |
| Lamp: | White or blue LED array |
| Life length: | approx. 10,000 hours |
| Kelvin color temp: | 6500 |
| Glass lens: | Convex cylindrical |
| Thickness: | 0.93" / 9.5mm |
| Power supply: | 10-28 volt, 1.47 amps maximum |

| | |
|------------------------|---|
| Casing material: | Black nylon and stainless steel |
| Dimensions: | 6.46" / 164mm x 1.73" / 44mm x 1.85" / 47mm |
