

This light can be surface mounted in areas needing low level lighting for steps, walkways, doorways and for general lighting on smaller boats. The bolted bezel is machined stainless steel 316 L and ensures a strong exterior for exposed areas. It is available with a frosted lens. This light uses the best quality materials and is designed for longevity and tested for water tightness to IP66. DV26 is available in 12 volt LED cool white, warm white, blue and red.
