

This light can be surface mounted in areas needing low level lighting for steps, walkways, doorways and for general lighting on larger boats. The bolted bezel is machined stainless steel 316 L and ensures a strong exterior for exposed areas. It is available with a frosted and clear lens depending on which light version you choose. This light uses the best quality materials and is designed for longevity and tested for water tightness to IP66. The DV28 is available in 12 or 24 volt with a twin MR11 lamp option, maximum wattage 20 watts per lamp and 12 volt LED. LED colors available are cool white, warm white, blue and red.
